FLORENCE AND NORTON MEET THE PRINCESS. Scene from the Eighteenth installment of "The Million Dollar Mystery," to be shown at the Olympic today.

Barrie's Plays With Maude Adams As Star Will Be Filmed

Among the several important things that are to be done by photoplay producers this season there are few more important to the amusement seeking public than the forthcoming productions of the plays of Sir James M. Barrie with Maude Adams as star. No definite announcement has yet been made as to just when the making of these plays is to commence. The only thing that has been announced is that the first of them will be "The Little Minister," the play in which Miss Adams first appeared as a stage star. The star is now in New York and expects to go out to the Pacific coast during the winter season, as she has theatrical engagements to fill in San Francisco during the American season. It may be that the first of the plays will be started before she leaves the East. And it may be that the producers will wait until she reaches the Pacific coast and make the pictures there in that order. The author himself has arranged for the preparation of the film versions. The Famous Players Company will be the producers and the scenario is in the hands of the author. Giant German Liner May Be Sold in Attachment

LONDON, Oct. 27.—The British government hopes to obtain possession of the Hamburg-American liner Vaterland, which was captured by the German navy, and is now being held in Germany. The liner is one of the largest and fastest in the world, and is valued at \$10,000,000. The British government has offered to pay \$10,000,000 for the liner, but the German government has refused to accept the offer. The British government has now decided to attach the liner, and to sell it to the highest bidder. The liner is expected to be sold in the near future.
